

# What is a Governance & Service Delivery Study?

## Get to know the CCRD

Have you ever wondered about the services you receive from the CCRD, how decisions are made by your local government or how you can provide input? The Governance & Service Delivery Study is your chance to do just that.

This study will:

- Detail the services CCRD provides to the region
- Share information on how the regional governance system works
- Seek input and ideas on how services and governance can be improved

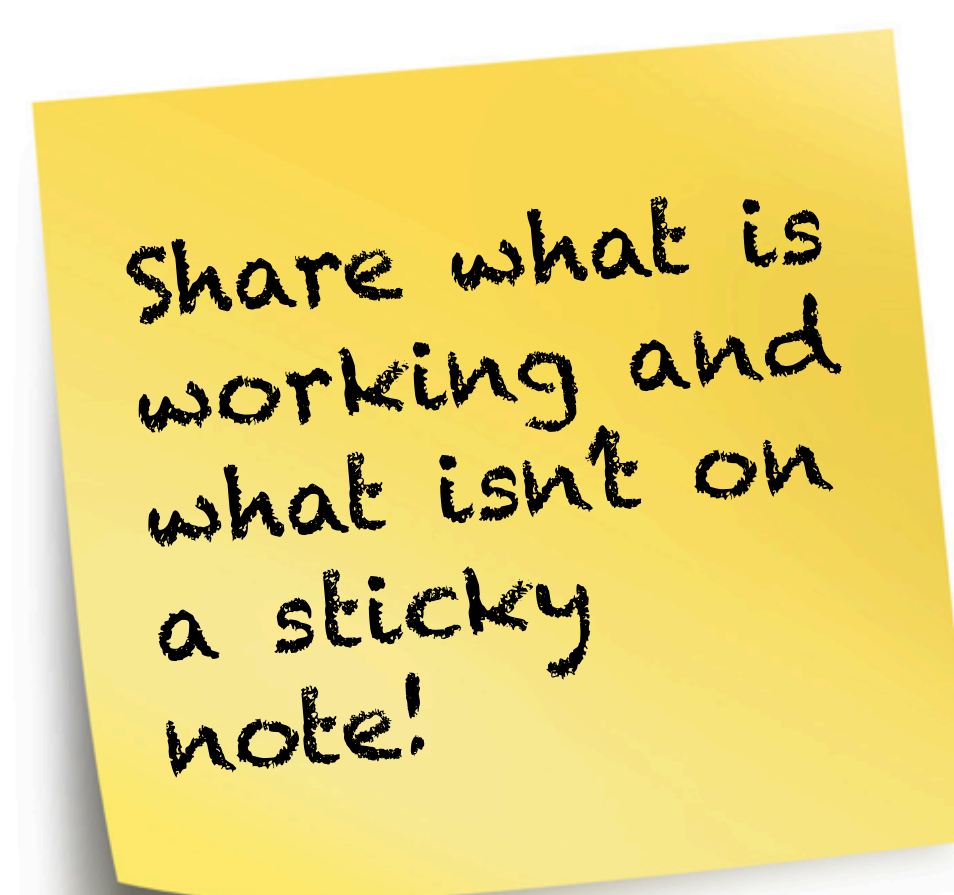

## Discuss Your Views

The CCRD is the only regional district in BC with no municipalities. It is made up of a large area, with several unique and remote communities. The CCRD provides some local government services to these communities, and some are provided by other authorities, such as improvement districts and First Nations.

Is the current approach to services meeting the needs of your community? Are there better ways to respond to local needs and prepare for future challenges?

## We invite you to ...

- Review the presentation boards
- Join a discussion table
- Complete a survey
- Discuss your views with the consultants
- Take away *Fact Sheets* or view them online at [www.ccrd-bc.ca](http://www.ccrd-bc.ca)

Your input will help identify issues and build recommendations for improvements within the current regional governance framework.

**Get informed.**

**Get involved.**

**Have your say!**
