Centennial Pool Commission

19 August 2014

Central Coast Regional District

Minutes

Present: C. Nygaard, N. Koroluk, J. Kyle, J. Cole

Guest: Holy Poell, Pool Manager

Meeting held at 5:30 pm at the Pool

1. Manager's Report

Some pool staff have asked questions concerning possible pay raises. They will be reminded that the Board has to approve matters relating to compensation.

So far this summer the following courses have been taught to staff: Bronze Cross, LSI, First Aid and Pool Operator.

Performance evaluations have been completed for the staff.

Family Fun Day was quite popular, with requests for more such days, so its PR value was high. The junior staff did most of the work, which was good training for them. About \$450 was taken in through admissions and sales of burgers and pop.

Carolyn Diguistini (Nuxalk Band) wants to bring some kids for lessons and a fun day. The Learning Society (J. Kyle) can help with some funding.

So far treats for sale at the counter have brought in more than \$360.

2. Chair's Report

Nicola noted that Coleen Fraser has once again done a tremendous job this summer in teaching lessons, working on practicum, and answering the PM's questions.

Over the winter, the Board should discuss how to increase revenue and maintain a working relationship with Nuxalk Nation

3. Pool Manager Review

The Board discussed the review sheet, prepared by the commission, and evaluated the PM's performance in these categories. Holly also submitted her self-evaluation at the request of the commission.

4. September Programs

The intent is to keep the pool open through the first part of September, at least in the afternoons. Local staff will be available and a qualified friend of the PM will also be here.

The commission and manager will review the possibility of a day camp in September if school is out.
