

CENTRAL COAST REGIONAL DISTRICT

DATE: 4 June 2015
TO: Board Chair Reginald Moody and Board Members
FROM: Director Alison Sayers
SUBJECT: **Area C – Directors Report**

Herein please find my Area C report:

1) The Pool Commission was approached by Bella Coola Elementary (BCE) to provide a free swim pass (good for one swim) to each BCE student in an end-of-the-year package.

The Pool Commission would like to do this by providing all K-5 students who live in the valley with a free pass. At approximately 150 kids, the commission feels this would be cheap advertising for the pool.

2) Through Jennifer Rice, I am in email contact with the bi-partisan Opposition Standing Committee on Agriculture and Food. They are traveling the province with the purpose of listening to "farmers, farming advocates, and food policy experts". Their goal is to bring the "values, ideas, and concerns of farmers directly to the BC legislature". I have received one email stating that my email has been forwarded to committee members, however I would like CCRD to send a follow-up email to entice them to travel to our district. Given the current climate in our province with regards to the ALR, as well as the many current and potential economic development opportunities that agriculture has for our region, I feel it would be a very good idea to engage this committee.

Respectfully Submitted

Alison Sayers
Director Area C
