Reports for the agenda June 13

Bella Coola Harbor Authority

The BCHA held the annual meeting on May 23 there were three positions to be filled on the board the three elected were Janice Kyle, Carsten Gensberg and Myself. Because I ran for the board it doe not require the request of the board for director Tallio to step aside is not necessary the reason for that request by the board was to bring another new member to the board and yet have some consistency.

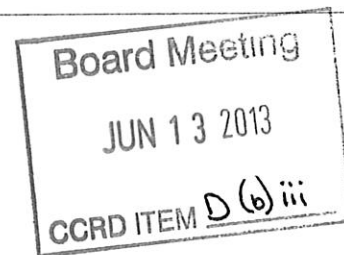

Everything is going well at the Harbor we recently had our 6 month review of our 5yr plan and already have accomplished a number of item and are moving forward. There are a couple of notable things the are proceeding the funding for both the water system and the ice plant have been approved and work has started on getting this work done will likely be up and running by July. Our harbor manager has been working on dredging in the harbor and we are setting money aside for planning of this project. There are many projects in the planning stage some will require partner such as Bella Coola Valley Tourism but with a hard working manager and board and support of the community we will succeed

MaPP

The MaPP process is moving forward well quodinators of the process have hire Allison Sayers a Vally resident to assist us in our efforts in the planning from the valley prospective. Because I am unavailible for the June meeting in Klemtu she will attend for me she will also go to the meeting in Sept in Haiki. I will be meeting with Allison on Friday the 14 of June
