CENTRAL COAST REGIONAL DISTRICT
POLICIES

F-11 - Firemen's Use of Department Equipment

Preamble: The Volunteer firemen of the Bella Coola Valley Fire Department of the Central Coast Regional District, as part of their weekly practice sessions, are aware of the consistent requests for street cleaning services on the townsite. The group of volunteers, from time to time, use equipment belonging to the Bella Coola Volunteer fire Department.

In order to avoid inconsistencies and potential conflicts related to the regional district and the firemen's club, it is necessary that the use of regional district property be clearly defined.

Policy: There shall be no street cleaning services offered to the townsite and there shall be no revenue generated from the use of Fire Department/Regional District equipment for such a service. The Fire Department will not use public equipment except for the express purpose of conducting weekly practice sessions and/or responding to fire calls.

Effective date as adopted by the Central Coast Regional District Board of Directors:
July 17, 1997

Adopted: July 17, 1997
