Central Coast Regional District

Dear Todd Hubner,

I was born and raised in the Chilcotin and I now live in Bella Coola. We travel out over highway 20 regularly and I am appalled at the garbage all along the road, but mostly the dirty, filthy mess at the view points. We stopped at the Kleena Kleene view point last week to enjoy looking across at the mountains but found it so disgusting with shitty pampers, toilet paper, cans and garbage that the beautiful view was forgotten. There should be proper toilets and garbage cans that get well maintained. When travelling from Bella Coola to Williams Lake there aren't many facilities to stop at along the way. I think that the view points are an excellent idea, they just need some fixing up. It's so important to keep our country clean, not only for us locals but tourism as well. How could you proudly promote filth like that?

Sincerely, Sandy Willson

Sandy Willson
